Orthopedic & Fracture Clinic recognized as MGMA ‘better performer’

(PORTLAND, OR), (04/18/2005) – The Medical Group Management Association (MGMA) *Performance and Practices of Successful Medical Groups: 2004 Report Based on 2003 Data* identified Orthopedic & Fracture Clinic as a “better performer” because of superior operational service compared with similar medical group practices nationwide.

The MGMA report, a benchmarking standard among medical groups for more than seven years, was produced using data from more than 1,240 respondents to the *MGMA Cost Survey: 2004 Report Based on 2003 Data*, as well as data from a questionnaire that assessed practices and procedures of better performers. The report profiles medical practices that have demonstrated success in one or more business areas: profitability and cost management; productivity, capacity and staffing; accounts receivable and collections; patient satisfaction; and managed care operations.

Note: MGMA surveys depend on voluntary participation and may not be representative of the industry. Readers are urged to review the entire survey report when making conclusions regarding trends or other observations.

About MGMA

MGMA, founded in 1926, is the nation’s principal voice for medical group practice. MGMA’s 19,500 members manage and lead more than 11,500 organizations in which more than 240,000 physicians practice. MGMA’s core purpose is to improve the effectiveness of medical group practices and the knowledge and skills of the individuals who manage and lead them. MGMA headquarters are in Englewood, Colo.
